The firemen of the State made a very creditable appearance in the procession at Austin Monday. The San Marcos Boys were especially admired.

Foremen Smith and Rao, of the San Marcos Fire Department, took charge of their companies at Austin on the 2d inst., and kept them in the traces. (?)

One of the visiting firemen at Austin, on the 2d inst., from San Marcos, says that rancid peaches sold there made him very sick. Another says you can bet "all your old boots" he'll never eat any more cheese.

Dick Seal, a negro living in the upper part of town, was struck on the head with a piece of scuffling Sunday evening by John Robinson, another dakey. He is in a critical condition. Robinson is now in demand but can not be found.

Mr. Peel, the faithful assistant P. M. of San Marcos, met with quite an untoward experience one night last week. He was arranging some boards covering a cistern some fifteen feet in depth at his home after dark, when they gave way precipitating him to the bottom with the boards and rails rattling about his ears. He was rescued by his faithful wife who procured a ladder and got him out uninjured save by a few slight bruises.

A New Almanac.
We have received from the Fowler & Wells Co., their Almanac for 1885. In addition to the monthly calendars and usual astronomical calculations, it contains a sanitarium for each month of the year, giving special and seasonable health hints which should enable its readers to shun most of the ills that flesh is heir to. The principles of Phrenology are explained and fully illustrated, and a most valuable feature is the explanation of the qualifications needed for the principal pursuits of life, showing what each person can do best. Send 5c. in stamps. Address FOWLER & WELLS CO., Publishers, 753 Broadway, New York.

Yesterday was fair and placid. May it prove to have been emblematic of the incoming administration.

The Town council met last night being the regular night for meeting with the following members present: Mayor Cook, Aldermen DONALSON and DAILEY. There being no quorum present Council adjourned.

MARRIAGE LICENSES issued since our last report to the 3d inst.:
Robt. Roach to Aden Sharp.
Edmund Ellis to Ellen Kelly.

Judging from the boisterous demonstrations of the crowds who left Austin on Monday evening, we should think they were largely under the influence of bad whiskey. We regret to have to say that the "San Marcos delegation" was not an exception.

The Tuling Roller Skating Rink will give a grand skating exhibition and dance at Harper's Hall on Monday night, March 9th, 1885. It will be one of the most interesting events given in our city and no one should fail to attend. Admission to rink and dance \$1.00. Ladies with escorts free.

District Court met and adjourned over on Monday on account of the holiday and the demonstration at Austin. Judge Tschumler charged the grand jury on Tuesday. We hear the charge highly spoken of, and hope to give a synopsis of it in our next. But little business has as yet been done.

The Sheriff has been called from Luling to come up in our court on Monday. He is a very capable man and has something to say in his advertisement, and says it in an attractive or unique way, seldom or never suffers from money wasted in advertising. Tell what you have got, and if possible the price. Nothing catches the eye so quickly as a dollar mark.

Some Objections to Writing Machines.
A Rev. gentleman offers the following demurrer:

1st. "To admit that it is an improvement is to admit progress, which is dangerous."

2nd. "It shows how badly I spell."

3rd. "If one gives a Caligraph for copy, he can never say 'the printer did not read correctly, I wrote so and so.'"

4th. "We have had all the trouble of writing and reading illegible writing; why should the next generation have an easier time?"—See advertisement in another column.

We failed to mention last week that Mr. and Mrs. Dan Nance, Mrs. Powers and others from this place who recently went to the Exposition by the Shreveport route, came near becoming the victims of a railroad wreck caused by some villain placing an obstruction on the track. A freight train chanced to pass first, and was wrecked, or perhaps many lives would have been lost. The criminals were caught in a short time.
